EDUCATION

**Bachelor's degree,
Informatics Engineering**
Kaunas University of Technology
2022-2026

**Diploma of Education
with honors,
Information Technology**
Alytus Young Computer
Scientists Academy (JIA)
2022-2026

**Certificate in Advanced
English (C1)**
Cambridge Assessment English
2022

SKILLS

Technical:

C#	● ● ●
SQL + MariaDB	● ● ○
UML	● ● ○
JavaScript	● ● ○
Git	● ● ○
Python	● ● ●
Understanding of AI algorithms	● ● ○

Soft:

Teamwork	● ● ●
Critical thinking	● ● ●
Analytical skills	● ● ○
Meeting deadlines	● ● ●
Customer service	● ● ○
Planning	● ● ●

PROFILE

Informatics Engineering 3rd year student in Cyber Security field. Active, motivated to learn, very curious and passionate about cyber security. Willing to learn more about the field while technology improves.

PROJECTS

Platform Strider – 2D game >70 hours

Game development from scratch

- Using Agile methods while working in a team
- Using Unity as a game development tool
- Writing many C# scripts and formal reports

Engineering project on usage of algorithms 40 hours

- Problem solving using “best local”, optimal solution (Branch and Bound), genetic optimization, parallel programming algorithms in C#

MVC model Website 40 hours

- Coding with C#
- Writing sophisticated SQL requests
- Working with a real database in MariaDB
- Ensuring MVC model infrastructure

Engineering Project on clustering algorithms 50 hours

Coding a SOM neural network clustering algorithm

- Using Python for coding
- Data normalization, counting BMU, silhouette coefficient and more

COURSES

	Evaluation
• Basics of Data Structures	10/10
• Basics of Intelligence (AI)	10/10
• Databases	9/10
• Design and Analysis of Computer Algorithms	10/10
• Fundamentals of Object-Oriented Programming (1 year course)	9/10
• Discrete Structures	10/10
• Computer Architecture	9/10
• Operating Systems	8/10
• Mathematics 1 and Mathematics 2	10/10

Two-time talent scholarship winner for high academic achievements
